

Timothy[®]

Tiemonium methylsulfate film coated tablet / syrup / injection

DESCRIPTION

Timothy[®] is a synthetic antispasmodic agent. Tiemonium strengthens calcium bonding with phospholipids and proteins thus stabilizing the cell membrane of the GI tract.

INDICATIONS

Timothy[®] is an antispasmodic drug that reduces muscle spasms of the intestine, biliary system, uterus & urinary bladder. It is indicated for the pain in gastrointestinal, biliary, urological and gynecological disease such as gastroenteritis, diarrhoea, dysentery, biliary colic, enterocolitis, cholecystitis, colonopathies, mild cystitis, & spasmodic dysmenorrhoea.

Timothy[®] Injection is indicated for acute pain.

DOSAGE AND ADMINISTRATION

Oral :

Tablet : 2 to 6 tablets (100 - 300 mg) daily in divided doses as required.

Syrup :

Children : 3 ml / kg body weight daily in 3 divided doses.

- 10 kg. wt. baby- 2 teaspoonfull 3 times daily.
- 15 kg. wt. baby- 3 teaspoonfull 3 times daily.

Adult : 5-15 ml three times daily.

Parenteral : The usual dose is 5 mg / 2 ml (1 ampoule) three times daily by slow IV or IM injection.

CONTRAINDICATIONS

Tiemonium methylsulfate must not be administered to patients with glaucoma and difficulties in urination (particularly due to disorders of prostate).

SIDE-EFFECTS

Tiemonium methylsulfate may have some undesirable effects in certain individuals like risk of hypotension and tachycardia specially in case of injection.

USE IN PREGNANCY AND LACTATION

The use of tiemonium methylsulfate is not recommended during pregnancy and lactation, unless the potential benefit outweighs the possible risks.

PRECAUTIONS

Cautions must be taken for the treatment of patients with cardiac disorders, severe renal or hepatic impairment, thyroid disorders, chronic bronchitis, disorders of the prostate, and certain gastrointestinal disorders.

PHARMACEUTICAL PRECAUTION

Store in a cool, dry place and away from light. Keep out of reach of children.
