

Hunny®

Glycerol and liquid sucrose oral solution

DESCRIPTION

Hunny®, an oral solution containing glycerol and liquid sucrose, acts by blocking sensory cough receptors within the respiratory tract. Glycerol also has demulcent properties (soothing effect).

INDICATIONS

Hunny® is indicated for relief of irritating, tickling dry coughs and sore throats.
Oral administration only.

DOSAGE AND ADMINISTRATION

Oral administration only.

Adults and children over 5 years: 10 ml

Children 1 to 5 years: 5 ml

The dose may be repeated 3-4 times a day

Children 3 months to 1 year: 5 ml

Elderly: No need for dosage reduction in the elderly

SIDE-EFFECTS

No side effect would be anticipated.

PRECAUTIONS

Hunny® is for oral consumption only. It is not for injection. Diabetic patients should take note of the carbohydrate content of this product.

PREGNANCY AND LACTATION

There is no sufficient data to establish the safety of the **Hunny®** in pregnancy and lactation. Nevertheless **Hunny®**, or any other medication should be used during pregnancy or lactation only if clearly necessary.

OVERDOSE

Over dosage would not be expected to cause any problems and treatment would be merely symptomatic and supportive.

DRUG INTERACTION

No clinically significant interaction is known.

PHARMACEUTICAL PRECAUTIONS

Store in a cool, dry place and away from light. Keep out of reach of children.
